What is Veterans Treatment Court (VTC)?

The **Veterans Treatment Court** model requires regular bi-weekly court appearances, as well as mandatory attendance at treatment sessions and frequent and random testing for substance use (drug and/or alcohol). Veterans respond favorably to this structured environment given their past experiences in the Armed Forces.

Without this structure, these veterans are likely to re-offend and remain in the criminal justice system.

The length of traditional VTC track ranges from a minimum of eighteen (18) months to twenty-four (24) months, depending on your progression through the 4 phases in the program.

The Veterans Treatment Court is able to ensure they meet their obligations to themselves, the court, and their community. The Veterans Treatment Court is a collaborative effort of the following:

- Administrative Office of the Courts
- State Attorney's Office
- Public Defender's office
- Clerk of the Circuit Court
- Department of Veterans Affairs
