ALTERNATE PROCEDURES FOR SAFE ENTRY

For Permit-Space with actual or potential hazardous atmosphere ONLY; and Continuous forced air ventilation alone is sufficient to maintain the permit-space safe for entry.

The following must occur to certify to an Alternate Procedure for Safe Entry.

- Protect against hazards when opening cover/opening;
- Provide guarding to opening once uncovered;
- Provide continuous ventilation;
- Perform Pre-entry atmospheric checks to verify safe entry;
- Periodically monitor the space for duration of the entry;
- Procedures will be followed if hazardous atmosphere detected and before re-entry;
- Make documentation/certification available to employees entering space and authorized representative.
